

The complete solution for the hearing health of professionals exposed to noise

Creation of awareness during taking ear impressions

Taking of impressions to manufacture your hearing protections **+** **awareness-raising** to encourage new behaviours towards noise
= 100% protected employees

Each impression taking session is accompanied by creation of awareness to the risks of noise and information about COTRAL customised hearing protections.

For 5 you key points

- **Motivation** of your employees into wearing the protections 100% of the time spent exposed to noise.
- **The know how of the prevention technicians** to assist you in conveying the important messages.
- **Personalisation of the modules** for awareness and training for complete involvement.
- **Compliance with the legislation** concerning information and training of employees exposed to noise.
- **The variety of the communication media** to raise individual awareness faced with the risks of noise.

Aims

of this awareness-raising

Since we want your protections to be your hearing's best allies, we want your employees to realise:

- that **deafness is irreversible**,
- that an effective protection is one which is worn 100% of the time spent exposed to noise.

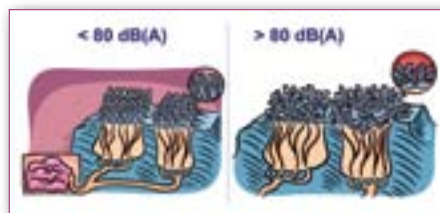

Topics dealt with

- What is noise?
- Functioning of the ear
- Deafness
- Importance of wearing hearing protections 100% of the time spent exposed to noise

Duration of awareness-

raising

- 10 to 20 minutes during each impression taking session.
